There is no doubt about it; Good times are on the way. You can feel it in the air. You can see it every day. Good times are come again; So all the people say. Then let us join the chorus—Hooray, hooray, hooray.—Punch's Spirit.

Phonographic. Concert at School. Hall Friday night. Prices: 15, 25 and 35 cents. Arbor day next Friday, April 26.

W. W. Hague of Tidouete was in town yesterday. Hart Lawrence is laid up with an attack of quinsy.

B. S. McGill was down from Tidouete Saturday. Miss Effie Clark spent Sunday with Tidouete friends.

Will Kimble of Tidouete was down on business Friday. T. A. Lewis and wife of Tidouete were in town over Sunday.

W. D. Becklin of Tidouete was in town on business Monday. Miss Emma Klinefister is in New York receiving medical aid.

Miss Kate Caulfield visited friends in Pleasantville last week. The press is the foe of rhetoric, but the friend of reason.—Colton.

Born, to Mr. and Mrs. John Saylor, Saturday morning, a daughter. Sheriff Carson is in the eastern end of the county on official business.

Lots of spring hats left, both large and small, at Flora Walters & Co's. It is said that there is a physician in Brockwayville named Dr. Coffin.

Capt. John J. Haight of Howe township was in the county seat over Sunday. Honesty has a disposition to sag down in the middle if too much gold is loaded on it.

Don't forget that you can get the best oil and gas lease out, at the REPUBLICAN office. Boys will be boys, and some of the girls are doing the best they can in the same direction.

Hon. J. B. Agnew is up from Washington, shaking hands with his many friends in this place. O. D. Reed and J. H. Smith of Fryburg, Clarion Co., were in Tionesta on business yesterday.

Col. Butler of Hudson, N. Y., was in town last week, on business concerning the Hammond heirs. We are not doctors, but we can keep your pocket book from having the grippe. Miles & Armstrong. It would suggest that as the fine weather comes along, that the cornet band would make itself heard.

Flour and feed is getting low in quantity but away up in quality. Price same as before, at Lanson's. The absence of any severe frosts or hard freezing weather during the past few weeks ought to insure a good fruit crop.

S. A. Munn, who has had charge of the Sires photo. gallery here for some time past, has gone to the West Virginia oil fields. We set the pace and lead the race. Imitators follow along at a breakneck pace. Miles & Armstrong. The sidewalks in town need straightening up in several places in and now is the time to do it, before someone gets hurt.

Quite a number of forest fires have occurred in this vicinity during the past week, but we have heard of no serious damage. Just notice the carpets at 40c. per yd. at Lanson's, and then notice what other dealers are charging for same quality. Miss Mae Huling is home from the Clarion Normal school, being compelled to give up her studies on account of failing eyesight.

Farmers, if you want good, re-cleaned seed oats, weighing 10 pounds to the bushel, call on H. W. Ledebur on German Hill. Never were they nicer than this spring. Never were they cheaper. Come in and look them over. Spring suits at Lanson's. Our thanks are due to J. F. Proper for a copy of the Monticello, (Ky.), News Era, which is chock full of oil news of that state.

The farmers have been getting a hustle on these days, and are tearing up the ground in great shape, preparatory to sowing their oats. There is no use for swinging dumb-bells and Indian clubs when you can get a spade and have access to an arden.—Huntingdon Journal.

Ladies who are annoyed by the redness of their noses may be interested in the opinion of an eminent physician that it comes through tight lacing. It makes an oil country man smile to see the items in the eastern city papers, which refers to our oleaginous fluid as coal oil.—Kane Republican.

Why do Miles & Armstrong sell so many goods in these hard times? Because people know they get what they pay for and at prices—well, just come in and see. Miss Grace Hassey, who has been home on a visit for a few weeks, returned to Jamestown, N. Y., where she is employed in the shoe factory of N. W. Gokey & Son.

I believe that capital and wealth, combination and other means, sometimes gain undue advantage.—President Cleveland. Possibly, Grover, possibly.—Blizzard.

If some of the unsightly fences in front of a number of properties in town were torn down and burned up it would make a vast improvement in the looks of the town. Last Thursday the Warren Evening News and Semi-Weekly Ledger published a woman's edition of sixteen pages, which was gotten up in good shape and ably edited by the ladies.

J. A. Vogelebacher, who has been the bartender at the Central House the past winter, has gone to the oil country. He is succeeded at the bar by Evan Davis, a gentleman from Oil City. A new board walk has been built from the lower corner of the court yard to the south entrance of the court house, which makes it much easier to get to the building than heretofore.

To the bicyclist, making his way to town on foot, after an accident to his wheel, what can be more humiliating than to have the small boys cry out to him, "It's a good thing; push it along!"—Ez.

John N. Heath, who has been in Marion, Kansas for a little over a year, arrived home Monday morning. John says he has got all he wants of Kansas and stakes old Pennsylvania against the world. By the rush at the millinery store of Flora Walters & Co., you would think it was the only store in the county, but come on, there are three ladies in the store and they can wait on you quickly.

Farmers, if you want your cattle dehorned you can get it done by calling on Amos F. Ledebur of Starr. He has recently purchased the best dehorning clipper on the market. Charges very reasonable. Someone has given this answer to the question, "Who is the devil's wife?" "The devil is the father of lying. Lying is invention. Necessity is the mother of invention, therefore necessity is the devil's wife."

Mrs. Kate Gannett Wells says that men are quite as nagging as women, and would be more so if they had to wear men's clothes. This is one of the unkind things a woman can say to a man and dare him to answer. Prof. Alton M. Lindsey of Randolph, N. Y., will give an elocutionary entertainment in Court house, on Saturday eve, May 11, 1895, under auspices of Epworth League. All are cordially invited. Admission 25 and 15 cents.

It is fortunate that the boom in the oil market occurred when it did, for had it come upon us a few weeks later it might have diverted attention from base ball. And that would have been nothing short of a calamity.—Blizzard.

An investigation of the strawberry quart box in Washington shows that it holds just a pint and a half of beans. The consumer of the early strawberry may think this remarkable shrinkage is a loss, but he forgets the sugar he saves. Dr. J. W. Morrow wishes to inform his patrons and others that he has called to his assistance Dr. Frank S. Hunter of Cleveland Dental College, and is now prepared to do all kinds of dental work. All work is first class and warranted.

B. S. McGill of Tidouete, the practical tinner and sheet metal worker, will be at the Central House, Tionesta, Friday, April 26. Anyone wanting roofing, spouting or any work done in his line will do well to call on him. Don't forget the date. Considerable activity is shown in the horse market at the present time and farmers and others who have horses that they don't need will do well not to sell too cheap, for if oil keeps up there will be a larger demand for horses than has been known for a number of years. According to the act of 1883 it is unlawful to kill wild ducks or any kind of web-footed fowl, except on Mondays, Wednesdays and Fridays, and then only from September 1st to January 1st. The penalty for violating the act is twenty-five dollars. As there have been a number of hunters killing wild ducks at all seasons of the year, this law against the practice will be news to many such violators.—Clarion Republican.

Local Oil Notes.

Oil market \$2.10

The well drilled by Cadwallader & Heene in Paint township, Clarion county, was finished last week and is a very strong gasser.

Jas. Hagerty, J. W. Jamieson, J. W. Stroup and Will Thompson went to Grand Valley Monday, where they will clean out a number of old holes on a lease recently purchased by Mr. Hagerty and get them in shape for pumping, and make preparations for drilling a number of new wells.

Grove Bros. will soon start a new well on their lease at Grand Valley.

A scramble for leases is still going on at a lively rate. The best blank lease out at the REPUBLICAN office in any amount desired.

The development of our oil interests will bring a considerable amount of money into our county, and money is what our people want and need just at present.

The Hague well up Beaver Valley, Hickory township, was drilled in last week and makes a slight showing of gas, but no oil.

A shot was placed in Dr. Siggis's well in Green township, last Friday, and is now pumping at the rate of 25 barrels. It is expected that the well will settle down to a 15-barrel producer, at least. This is a good starter and will certainly cause considerable wildcatting in that vicinity.

Siggis & Davis are cleaning out some of the old wells on the McNutt farm, and are preparing to drill new ones.

The gas well up Hunter run broke loose Saturday morning. It is claimed that this well has the highest pressure of any well in this neighborhood.

Dr. Siggis has leased the farms of Adam and James Emert and Fred Ledebur on German Hill.

Dale & Co. are building a rig on the Peter Young farm in Green township and will soon commence drilling.

Sotley Bros. have started another rig for Hague & Co. up Beaver Valley.

"In China there is a strange profession for ladies. It is carried on by elderly ladies, who go the round of the best houses, announcing their coming by beating a drum, and offering their services to amuse the lady of the house. This offer accepted, they sit down and tell the latest scandals and the newest stories and on dits, and are rewarded at the rate of a shilling an hour." We have heard of a few ladies in this vicinity who could make a good living at the same business.

Eggs for hatching ought to be washed in warm or at least tepid water before being set. This removes obstructions that may have closed the pores of the egg. Whenever the egg is broken in the nest the thorough washing of all the remaining eggs should be attended to at once. If the albumen remains over the egg-shell even a short time after the germ has started into life, the egg will quickly be added. Chicks in the shell need the air which comes to them through their covering. If the broken egg is smeared over an egg which contains a living chick, the latter quickly dies.—Ez.

A school director in Preston county while visiting a school recently was asked to make some remarks to the children, and said: "Children, I am glad to see you have ciphered clear through the 'rithmetic, beginning at addition and going through subtraction, perdition, adoption, jurisdiction, hallucination, derivation, creation and amputation. You went through the 'rithmetic like cyclone gone through Kansas. You made clean shuckin' as you went. I'm much obliged to you for your attention during my predatory remarks."

Nothing quite so entertaining as a phonographic concert where a good machine is used. The entertainment to school hall, Friday night, will not disappoint you, but is sure to please. The machine is especially adapted to large audiences, and in view of the fact that the entertainment is under the auspices of the Y. P. S. C. E., there ought to be a large audience in attendance. The phonograph is entirely new with all the late improvements, with new selections of music and said to be one of the best on the road. All who come may expect a rich entertainment.

The Pittsburgh Times again comes to the front with something new and useful to its readers. Beginning last Saturday it sent out with its regular edition a complete explanation of the international Sunday school lesson for the day following. These papers are the fruits of the best minds in America devoted to Sabbath school work. They are broad and non-sectarian in their treatment, and the Times feels confident that this new feature will commend itself strongly to that large and constantly growing class which devotes its energies to good works. The papers will come with the Times every Saturday hereafter.

Whenever you hear a man finding fault with his local papers, open them up and ten to one he has no advertisement in them; five to one he never gives them a job of printing to do; three to one he does not take the papers; two to one that, if he is a subscriber, he is a delinquent; even odds that he never does anything in any way that will assist the publishers to run their papers, and four to one that if the papers are good ones and full of life, he is the most eager to see them when they come out. Then he goes to a saloon to borrow and read one of them; spends ten cents on his drink, and says he is too poor to subscribe for a paper.—Ez.

German Hill.

German Hill.

Miss Emma Kiser, who has had charge of the German Hill school for the past six months term, finished her labors last Thursday. The school was closed with ceremonies appropriate to occasions of that kind, and a picnic and general merry-making, to which the parents and friends of the pupils were invited. Miss Kiser has the distinction of teaching the first successful term since the establishment of the school on German Hill, and is loved and respected by both parents and pupils and should she desire the school another term she will have no difficulty in securing it.
